Who We Are

We're Not Your Typical Finance Broker.

We're a team of accountants and brokers with 50+ years of combined experience — built for one thing: getting business owners funded without the runaround.

While the banks make you jump through hoops, fill out endless forms, and wait months for a "maybe" — we handle the hard work so you can get back to what actually pays you.

We exist to reduce friction.

You tell us what you need. We chase the banks, battle the paperwork, and fight in your corner.
You get back to running your business.

Who We Serve

The People Banks Overlook.

- **Tradies**

Sparkies, chippies, plumbers, concreters. If you use tools to earn a living, we speak your language.

- **Truck Operators**

Owner-operators, subcontractors, freight haulers. We understand cash flow gaps and 45-day payment terms.

- **Construction**

From bobcats to excavators. If the equipment makes you money, we finance it.

What We Offer

The Full Toolkit.

Asset Finance

Trucks, machinery, heavy equipment. We get you behind the wheel or at the controls without burning months in bank queues.

Equipment Finance

From chainsaws to chippers to CNC machines. If it makes you money, we find a way to finance it.

Business Loans

Working capital when you need to hire, expand, or bridge a gap. Straight answers, not runarounds.

Invoice Factoring

Your money's stuck in 60-day terms while bills are due now. Your truck doesn't run on promise of payment — it runs on cash flow. We fix that gap.

Vehicle Finance

Cars, utes, trucks. Fleet or single. Sorted fast.

Why Novara?

What Makes Us Different.

1 100+ Lenders

We're not one bank with one product. We match you with the right lender for your situation.

2 Faster Than Banks

No endless paperwork. No months of waiting. Get decisions in days, not quarters.

3 We Speak Your Language

We know a chipper from a grinder, an excavator from a loader. No corporate jargon.

4 We Handle Paperwork

You didn't start your business to fill out forms. We did. That's the deal.

5 Flexible Structures

Seasonal payments. Balloon options. Early payout. Structured around your cash flow.

6 Humans Answer Phones

No call centres. No chatbots. Actual people who know your file.

The Straight Truth

This Isn't For Everyone.

We don't pretend to work miracles.

If your credit file looks like a crime scene and you've got a hundred dishonours on your account — this isn't for you.

But if you've got:

- A real business that's actually operating
- A genuine need for equipment, vehicles, or capital
- The willingness to work with us on a proper application

Then the right lender IS out there. You just haven't met them yet.

That's literally our job.

What You Can Expect

Straight talk. We tell you what's possible. And what's not.

Someone in your corner. Finance shouldn't feel like begging.

Speed. When opportunity knocks, we move fast.

Respect. You built something. We take that seriously.

Ready to Talk?

No pitch. No pressure. Just a conversation to see what's possible.
